

National Newsflash

Continuous Years

The American Legion Auxiliary Membership Information System (ALAMIS) database reflects information in real time. The system reflects the number of years for which a member has completed years of paid dues. When we joined the American Legion Auxiliary, we were given the 1st. year. But think about, when we are born we cannot claim a full year of life until we have completed a full 12 months of life. So it is with the new system. It is hoped that in the future, as National explores and turns on new features of the system, we the members will be able to go into the system, pay our dues for the current year and it will be automatically updated to that current year.

2012 Membership Roster and Cards

Due to a printing error, every ninth member on your membership roster is missing their membership card. When the member with a missing card, pays her dues, use a blank card for her. If she wants a printed card, contact Paula in the department office for assistance.

Charting New Units

National has announced that a new unit can be chartered with a minimum of 10 new members, 10 or more transferring members or a combination of new and transferring members. Although the unit handbook states a minimum of ten new seniors is required to charter a new unit, there is nothing in our governing documents that requires all ten members to be new members.

Hope this information will be helpful and make a difference in the chartering of new units, and assist our department in growing our membership.
